WE KNOW FASTENERS & MORE

ADVANCED CABLE TIES

We manufacture our cable ties to be superior in strength, far exceeding the required tensile strengths used in industry standards, such as Type 215. Using high quality raw materials which are always inspected by Advanced Cable Ties (ACT) to insure they meet our standards, we proudly make our cable ties in the USA. Our products are consistent in quality, strength, and color. They are readily available to ship within 24 hours, leaving no waiting on long lead times to help manage your inventory. We maintain our cable tie industry leadership through our total commitment to quality, customer service, and building strong partnerships with our customers.
